SUMMARY

Motivated MERN Stack Developer with hands-on experience in building scalable and responsive full-stack applications using React.js, Node.js, Express.js, and MongoDB. Skilled in developing RESTful APIs, implementing JWT-based authentication, and writing clean, production-ready code. Experienced in integrating third-party APIs, optimizing application performance, and collaborating in agile development environments.

TECHNICAL SKILLS

- **Languages:** JavaScript, Java
- **Web Development:** React.js, Node.js, Express.js, HTML, CSS, Tailwind CSS, REST APIs, Redux, Next.js
- **Databases:** MongoDB, MySQL
- **Tools:** Git, GitHub, Postman, VS Code
- **Deployment:** Netlify, Vercel, Render

EXPERIENCE

- | | | |
|--------------------------------------|--------------------------------|-----------------------|
| • Associate Software Engineer | Busitron IT Solutions pvt Ltd. | Jul 2024 – April 2025 |
|--------------------------------------|--------------------------------|-----------------------|
- Developed reusable React functional components using Hooks and modular architecture across multiple features.
 - Developed complex, data-driven forms with client-side validation and managed global application state using Redux.
 - Integrated REST APIs and handled asynchronous data flow with proper loading, error, and state management.
 - Worked on dashboard and admin panel features, implementing data tables, filters, and role-based UI rendering.
 - Optimized component performance and collaborated with backend developers to deliver feature updates within sprint timelines.

PROJECTS

Prescripto – Doctor Appointment Booking System

[GitHub](#) | [Live](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Cloudinary, Framer Motion, Razorpay

- Built a scalable appointment booking platform with RESTful APIs for doctors, users, scheduling, and appointment lifecycle management.
- Implemented secure role-based authentication, JWT token handling, and Razorpay payment integration with transaction verification.
- Integrated Framer Motion animations, optimized API performance, and modular React components for responsive user experience.

Forever-A E-Commerce Web Application

[GitHub](#) | [Live](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Stripe, Tailwind CSS, Framer Motion

- Built a full-stack e-commerce platform with RESTful APIs, cart management, admin dashboard, and secure checkout sessions.
- Implemented Stripe payment gateway with webhook verification, order processing, and Cash on Delivery (COD) support.
- Integrated Framer Motion animations, optimized state management, and reusable components for high-performance UI.

EDUCATION

B.Tech in Electronics and Communication Engineering

KIET

2019-2023

ACHIEVEMENTS & ACTIVITIES

- Solved 300+ DSA problems on LeetCode, building strong fundamentals in algorithms and data structures.
- Built and deployed multiple end-to-end MERN applications with secure authentication, payment integration, and admin dashboards.
